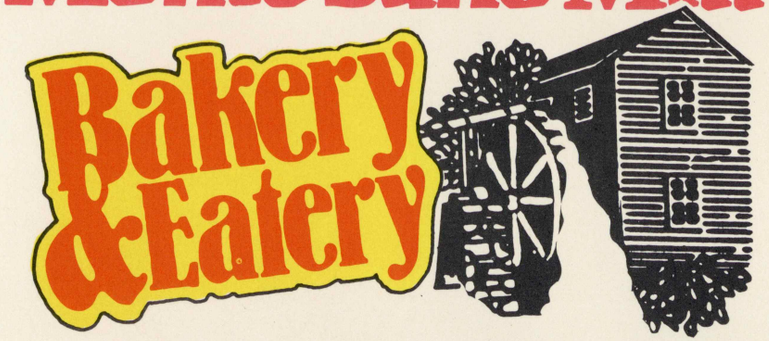
Monte Sano Mill

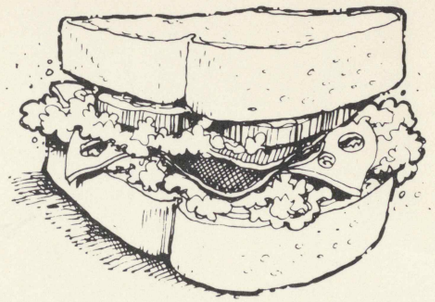


Bakery and Eatery

The idea came in a flash. Making it happen took a bit more time. We found the most creative builders and the most inventive bakers. We bought the best ovens made and put glass doors on them so our customers could witness our unique creations of dough. We collected and perfected recipes from all over the world.

Mill Sandwiches

Our meats are the highest quality and the lowest in fat we can buy. Our cheese is real and cut right from the hoop. We made an agreement with the grocer down the street. He gives us first choice of his freshest produce.



. . . So you can see we took the theory of sandwich and invented a nutritious well-rounded meal . . . beginning with a hunk of fresh bread, indecently topped with lean meats, cheese thats cheese and the freshest produce around.

Pies & Cakes

Fresh fruit pies and home baked cakes have fast become favorites at The Mill. Try them by the slice or take one home with you.
